

MONTREAL AMEBIASIS 2010 WORKSHOP

AMEBIASIS: MOLECULAR APPROACHES IN AN
IMPORTANT BUT
NEGLECTED DISEASE
Montreal, Canada
22 sept – 24 sept 2010

The Abstract must be prepared following the format of the example provided below:

GENDER-DEPENDENT SUSCEPTIBILITY TO EXPERIMENTAL AMEBIC LIVER ABSCESS IN IMMUNOCOMPETENT MICE.

Hannelore Lotter^{1,*} Thomas Jacobs², Iris Gaworski², Egbert Tannich¹

¹Department of Molecular Parasitology, ²Department of Immunology, Bernhard Nocht Institute for Tropical Medicine, Germany.

Amebic liver abscess (ALA) is the most common extraintestinal manifestation of human infection by *Entamoeba histolytica*. In contrast to intestinal infection, ALA greatly predominates in males but is rare in females.....
